

es.deusto.testing.junit.IMoney

```
classDiagram
    class IMoney {
    }
    class Money {
    }
    class MoneyBag {
    }
    Money --|> IMoney
    MoneyBag --|> IMoney
```

The diagram illustrates a class hierarchy. At the top is the class `es.deusto.testing.junit.IMoney`. Below it are two subclasses: `es.deusto.testing.junit.Money` on the left and `es.deusto.testing.junit.MoneyBag` on the right. A vertical line with an open arrowhead points from the `Money` class box up to the `IMoney` class box, indicating that `Money` inherits from `IMoney`. The `MoneyBag` class is positioned below `IMoney` but does not have a visible inheritance arrow, suggesting it also inherits from `IMoney`.

es.deusto.testing.junit.Money
